

Hungarian Society Forms American Class

The Hungarian Sick Benefit Society, No. 1848, has formed an Americanization class for the purpose of teaching the American language to those of its members who need to learn it and any others in the neighborhood who might be interested. They met last Thursday night for the first time, starting with enrollment of 13. This class meets at 429 Hallett street on Monday, Tuesday and Thursday nights from 7 to 9 o'clock. This is the

third class that the people of Hungarian descent have organized within the past few weeks under the direction of the Americanization Committee.

In every case, teachers have been provided by the Board of Education. It is hoped that still other educational centers for those of Hungarian descent will be opened up in the near future.

A Xmas Suggestion to Parents

Why not start a savings account for your boy, rather than an Xmas gift which will do no permanent good?

We repeat again our "Holiday Suggestion" of a week ago—that the gift of a bank book with an initial deposit is the wisest thing.

Besides complying fully with the holiday spirit it teaches thrift and the value of money, and the man who will succeed tomorrow must practice and know those things.
